

**CONSULATE GENERAL OF THE REPUBLIC OF GHANA, DUBAI**

**REVIEW OF COVID-19 PROTOCOLS FOR INTERNATIONAL  
TRAVELLERS TO GHANA**

Following the rise in Covid-19 cases, and the detection of the Omicron variant among international arrivals, the Ghana Health Service (GHS) has taken the following measures to prevent a major surge in COVID-19 cases in the Country.

**With effect from midnight the 12th of December 2021:**

1. All persons 18 years and above arriving in Ghana will be required to provide evidence of full vaccination for a COVID-19 vaccine.
2. All unvaccinated Ghanaians and residents of Ghana who are currently outside the country intending to return within 14 days from the midnight of 12th December 2021 are exempted. However, they would be vaccinated on arrival at the airport.
3. All Ghanaians travelling out of the country are to be fully vaccinated effective midnight 12th December 2021,

**Definition of Fully Vaccinated:**

A person is said to be fully vaccinated when he/she has taken the full dose of the following vaccines approved and registered by the Food and Drugs Authority (FDA), Ghana.

- Two (2) doses of AstraZeneca, Pfizer, Moderna or Sputnik V to be declared as fully Vaccinated
- One dose is required for Johnson and Johnson to be declared fully vaccinated.

**However, the following arrival Requirements remain unchanged:**

- The 72-hour Negative PCR test requirement prior to travel
- Completion of the Health Declaration Form which can be found at: <https://www.ghs-hdf.org/hdf/fill.php?l-en>
- All persons who arrive in Ghana will undergo Antigen test. This test must be pre-booked and paid for at: [https:// myfrontierhealthcare.com/](https://myfrontierhealthcare.com/) before departure to Ghana

We thank you for your understanding and cooperation.

**13th December, 2021**
